**Q. What type of printing method is this?**

A. The printer is a computer controlled large format ink jet printer that prints directly on to your garments.

**Q. Are the prints produced very detailed?**

A. The printer produces graphics with up to 1200 Dpi. Process screen-printing is about 72 Dpi

**Q. How many colors will the printer produce?**

A. By using the 4-color printing process (CMYK) and WHITE, it can produce over 16 Million colors.

**Q. How long does it take to print a shirt?**

A. It depends on the design, but a standard sized 10"X12" design can be produced in a minute.

**Q. Is there any post treating of the garment after printing?**

A. No, we heat cure it to set the ink.

**Q. What color of garments can it print on?**

A. We can print on any colored garment

**Q. Can you print on dark color shirts?**

A. Yes!

**Q. Will the ink withstand washing?**

A. Yes, we have done extensive wash testing and we have found that the ink is very durable in most cases better than Screen Printing. Also, the ink does not bleach off.

**Q. What is the maximum printing size?**

A. It is 14" x 16" on white or light colored garments, and 12" x 16" on dark colors. (or vice versa)

**Q. How much does it cost to print a shirt?**

A. It depends on the design, design size and number of prints per shirt. Please refer to our pricing.

**Q. What format does the design file have to be?**

A. We prefer PSD, illustrator or PNG files in high resolutions. However, other artwork formats may work depending on the job. Please contact us if you are not sure.

**Q. What types of fabric can it print on?**

A. You can print on a variety of fabric types, including 100% cotton and 50% cotton 50% poly blends. We have also printed on leather, canvas, and other materials with great results.

**Q. When the garment is being printed, how do you keep ink from bleeding from the front to the back?**

A. There is no need as the ink does not bleed through the shirt.

**Q. Can you print on sleeves?**

A. Yes. We can also print on pockets, hoodies, etc. Anywhere on the garment!
